MC-150 Cryo set, which is designed ergonomically. Using this system is so easy and safe. It is safe to fill the liquid nitrogen. It can be used after just a minute to fill the liquid nitrogen. The tumbler and valve system sprays safe. It is produced by cr-ni materials so it does not rust or break. There are a lot of special contact and spray tips (optional). Cryo set has 2 years warranty for producing mistakes and 10 years warranty for the spares.
